### Time-Bound Plan

**\*\*The Time bound Plan applies to existing/commissioned mills & their supply base. A report without an appropriate TBP will be considered as incomplete.**

#### Date of first RSPO estate certification (planned or achieved)

Select year

Time-bound plan - Year expected to achieve 100% RSPO certification of estates

Select year

What are your interim milestones towards achieving RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

We have planned to certify 24 mills in 2013, as reported in ACOP 2012. However, we expect to achieve only 23 mills as resources have been diverted to support other certifications like ISPO, which is mandatory for Indonesian growers.

By 2015, we would certify 41 mills instead of the 42 mills we have stated earlier. This is because we have decided not to go ahead with the construction of one of the planned mills due to commercial reasons.

The mills that are certified from 2014 onwards would be processing FFB from estates of varying maturities

Interim milestones  
2012 - 11 Mills 39.95% CSPO  
2013 - 23 Mills 76.06% CSPO  
2014 - 34 Mills 93.54% CSPO  
2015 - 41 Mills 100% CSPO

Timebound plan - Year expected to achieve 100% RSPO certification of associated smallholders and outgrowers

Select year

What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

2012 - 11 Mills 29.04% CSPO  
2013 - 23 Mills 79.14% CSPO  
2014 - 34 Mills 98.74% CSPO  
2015 - 41 Mills 100%

Time-Bound plan - Year expected to achieve 100% RSPO certification of independently sourced FFB

Select year

What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

We are reviewing this through a multi-stakeholders approach and will report in the next ACOP.  
About 7% of the FFB we are processing currently are independently sourced.
